## FOREWORD

The strengthening of spirit we ever find assured to us in the recurrent springtime resurrection of our gardens is far too important an aid to steadfastness of mind in these anxious times to be permitted to lapse. Pending the dawn of a better day there will be necessary retrenchments to consider, but let us make our major cuts rather upon those activities, far too numerous in this supposedly enlightened day, which tend to waste or cheapen our national heritage, than upon those which ennoble it, and in which many will find inspiration to greater service, while many likewise must depend on them for their livelihood and a means toward the performance of their own duty for which they have not elsewhere to look. I trust its writer will not take amiss my quotation of this fine sentence from a courageous Over-Seas catalogue: "Beauty is as vital to life as its more material supports, and more than ever so in these trying days, when our gardens and flowers provide refreshing and healing relaxation from mental strain and anxiety." The ensuing list of bulbs is an especially joyous one, including many superb subjects rarely or not at all encountered as yet in other American lists:

NOTE—The majority of my daffodils are replanted within a few weeks of digging. Orders should therefore be in early to avoid disappointment, especially for the rarer items. I would appreciate your suggestion of an acceptable substitution or two in the event your order finds me sold out of some item.

COLLECTION—3 bulbs each of 10 selected varieties, a splendid value, for \$5.50 postpaid.

EASTERN CUSTOMERS WILL FIND OUR ABILITY TO SHIP BOTH IRISES AND DAFFODILS BY EARLY SUMMER AN INESTIMABLE ADVANTAGE, GIVING THE PLANTS AN EXTRA LONG PERIOD OF ROOT-GROWTH BEFORE THE ONSET OF WINTER.

## SPECIAL NOTE

Our garden is not a large one, nor grandly landscaped, but it contains its full quota of rare and interesting plants, and those who will but remember that it is simply a horticultural workshop and do not expect too much of it otherwise, are always welcome visitors. In addition to our innumerable daffodils and irises, which form a collection not easily surpassed, we grow various species of Moraea and Nerine, a very fair array of freesias and Hemerocallis, and divers odds and ends of small bulbs, rock plants, peonies, herbs, and other perennials. Late spring and early summer and again the fall are in general the most favorable times to secure stock for planting, but to view the flowers our spring months are best, February and March for daffodils and April to June for irises. Do not, however, look for any signboard at the garden beyond the street-number, for even at the cost of some business, we are devoted believers in the slogan,

KEEP THE LANDSCAPE BEAUTIFUL!

THOSE COMING FROM OUT OF TOWN MAY APPRECIATE THE CONCLUDING REMINDER THAT REDLANDS HAS BEEN GLORIOUSLY ENDOWED BY NATURE AND MOST OF ALL IN ROSE AND ORANGE-BLOSSOM TIME, IS A SIGHT WORTHY A FAR JOURNEY TO SEE.
